

LIMS		
Table Name	Column Name	Column Comment
Component	component_id	
	component_name	
	component_type_id	
	vendor_name	
	model	
	version	
	serial_number	
	tamrf_number	
	odp_number	
	misc_number	
	value	
	Aquisition_date	
	component_status_id	
	component_location_id	
	documentation	
	component_comments	
component_condition_id		
Component_Condition	component_condition_name	
	component_condition_code	
	component_condition_descriptio	
Component_Location	component_location_id	
	component_location_area	
	component_location_code	
	component_loc_description	
Component_Status	component_status_id	
	component_status_name	
	component_status_code	
	component_status_description	
Component_Type	component_type_id	
	component_type_name	
	component_type_code	
	component_type_description	
Document_Associations	doc_assoc_id	
	doc_assoc_date	Date when the association was created
	doc_id	
	measurement_id	
	lab_id	
	groups_id	

	systems_id	
	component_id	
Document_Notes	doc_id	
	doc_note_id	
	doc_note_file_name	lower case, words separated by underscores; this file name is used in URL
	doc_note_title	Formal title of document
	doc_note_author	should be linked to "People" table in future
	doc_note_date_submitted	Original submission to coordinator
	doc_note_comment	
Document_Status	doc_status_id	
	doc_status_name	
	doc_status_code	
	doc_status_description	
Document_Types	doc_type_id	
	doc_type_name	
	doc_type_code	
	doc_type_description	
Documents	doc_id	
	doc_type_id	
	doc_status_id	
	doc_file_name	lower case, words separated by underscores, version number v#_# added at end, separated from name by underscore; this file name is used in the URL
	doc_version	Same version number that is used in file name, with prefix "Version" and the whole number separated from decimal by period (Version #.#)
	doc_latest_version	"Y" or "N" constrained field
	doc_title	Formal title of document
	doc_date_submitted	Original date of submission to coordinator
	doc_date_posted	
	doc_url	Full URL; the last element must be the same as the doc_file_name
	doc_comments	
	doc_primary_author	should be linked to "People" table in future
	doc_more_authors	
	doc_coordinator	
	doc_reviewers	
Groups	groups_id	
	groups_name	
	groups_acronym	
	documentation	
	groups_description	
	groups_comment	
Labs	lab_id	
	lab_name	

	lab_acronym	
	lab_type	
	documentation	
	lab_description	
	lab_comment	
	superlab_name	
	superlab_acronym	
Measurement_Type	measurement_id	
	measurement_name	
	measurement_acronym	
	measurement_units	Physical unit symbol (SI)
	measurement_description	Description of measurement principles
	measurement_comment	
Systems	systems_id	
	systems_name	
	systems_acronym	
	groups_id	
	lab_id	
	measurement_id	
	ship_shore	
	documentation	
	date_installed	
	date_removed	
	systems_comment	
Systems_Component_Assoc	systems_id	
	component_id	
	install_date	
	install_leg_exp	
	remove_date	
	remove_leg_exp	
	sca_comments
