*General and Responsibility for Exam Expense*

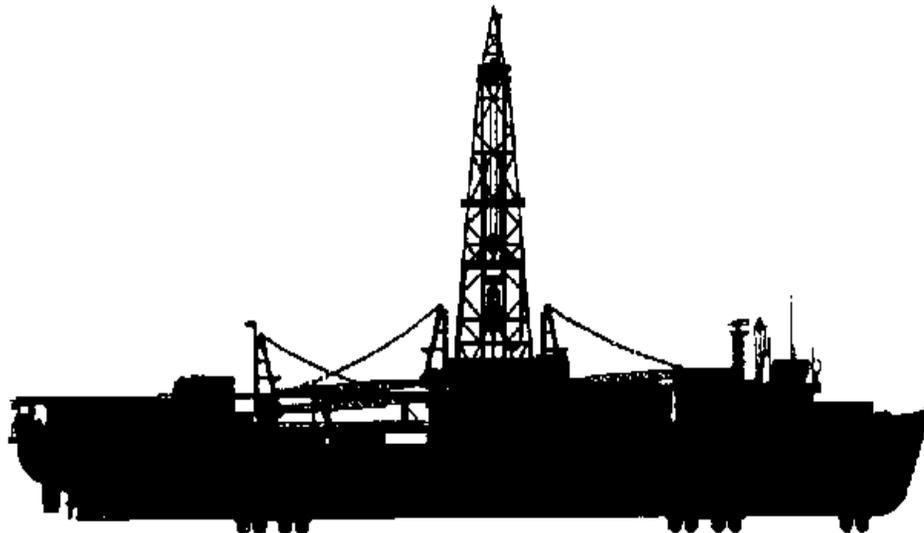

## **New Employee Physical**

*General, Responsibility for Exam Expense, and Medical History Records*

- Attachment 1: Medical History Questionnaire  
*To be signed by the new employee or expedition participant  
New employees must attach copies of immunization records  
and blood type to this form.*
- Attachment 2: Typical Physical Requirements of IODP Employee or Expedition Participant  
*To be given to physician for review, along with all other Attachments.*
- Attachment 3: Medical Exam Requirements & Certification of Eligibility to Participate  
*To be given to physician along with all other Attachments.*
- Attachment 4: Additional Physical Exam Reimbursements for Participants with Depression/Mental Illness/Emotional Problems  
Letter to physician requesting additional information
- Attachment 5: Physical Exam Reimbursement Form for ASPP Personnel **only**
- Attachment 6: OSHA Respirator Medical Evaluation Questionnaire (Mandatory)

**New employee physical exams** should be returned as soon after completion as possible, prior to the new employee's first working day.

**Annual or pre-expedition examinations** should be returned no later than one month prior to departure to join the ship in port.

# International Ocean Discovery Program Physical Exam Policy

## INTRODUCTION

The purpose of the International Ocean Discovery Program (IODP) Physical Exam requirement is to protect the health and safety of all expedition participants and to minimize interference with successful completion of the scientific objectives of each expedition. Physical examination results will determine eligibility for employment and/or expedition participation. All medical information will be kept in secure files and treated confidentially.

All persons offered employment in seagoing positions, employees in seagoing positions, and expedition participants are required to complete a comprehensive physical examination by a licensed physician according to the terms of the International Ocean Discovery Program Physical Exam Policy as detailed in the following pages. Furthermore, IODP may require specific medical or psychological tests and/or evaluations of participant at any time medical conditions warrant.

The reimbursement terms, as outlined in the following pages, are based on a philosophy of payment for examination and evaluation. The International Ocean Discovery Program is not responsible for the cost of any medical or psychological treatment necessary for the individual to meet the requirements of this policy.

**IODP maintains protocols to ensure the security and confidentiality of your personal information. Your information is limited to those who need it to evaluate your physical/mental health. IODP is committed to using protected health information (PHI) about you responsibly. The Notice of Privacy Practices describes how medical information about you may be used and disclosed and how you can get access to this information. Please see the Notice at:**

## GENERAL HEALTH CONSIDERATIONS

### Immunizations

Current information on immunizations required to enter to the port or country of operation is listed on Attachment 1a. New employees are required to attach a copy of records of immunization history to the Medical History Questionnaire (Attachment 1a). If medical records are not provided, immunizations may be given as part of the exam. IODP will cover the cost of required immunizations.

### Medical Supplies

Medical supplies and medication on board the drillship are limited. Each participant is responsible for bringing an adequate supply of medication or medical supplies for treating an existing condition for the duration of an expedition.

### Sea/Motion Sickness

Each participant is encouraged to discuss the possibility of sea/motion sickness with his/her physician. The physician may be able to provide information and/or prescribe medications to prevent or control the symptoms. Employees with concerns about sea/motion sickness should also discuss their situation with the ship's physician as soon as possible after boarding.

### Pregnancy

If a participant suspects she is pregnant, she is advised to see a licensed obstetrician/gynecologist. A participant who is pregnant must provide her obstetrician/gynecologist with a written job description for her position and obtain a certification from the obstetrician/gynecologist. The certification must state that the participant is capable of performing her duties and explain any physical restrictions or limitations. This information is required to determine if participant is eligible for participation in the specified expedition.

### Allergies

To minimize the occurrence of an allergy problem that may arise during an expedition, each participant is asked to bring non-perfumed, non-allergenic hygiene products on the ship.

### **Medical History**

Employees are to complete information on medical history on Attachment 1-1c. Attachment 3 lists all medical tests required as part of the physical exam. If a new employee is unable to provide a medical record evidencing blood type or immunizations, then blood typing and immunizations will be completed as part of the New Employee Exam. Employees are responsible for reporting any serious illness or injury, physical and/or emotional, that is overlooked during the medical examination or that develops after the exam and prior to boarding the ship. In such a situation a follow up medical evaluation may be necessary to determine fitness for sea duty.

### **Distribution**

The physical exam packet is distributed electronically to all ASPP employees. NON-ASPP, participants, scientists receive the packet by mail or they can request the packet electronically. If received electronically, the receiver must confirm receipt of the exam. HR sends reminder emails to ensure that IODP receives the exam in a timely manner. The employee exam is available in Adobe and Word format and also available on the IODP website at [http://iodp.tamu.edu/participants/before\\_exp.html](http://iodp.tamu.edu/participants/before_exp.html)

### **Cabins**

While on board, it is required that employees/participants must share a cabin.

## **ANNUAL OR PRE-EXPEDITION PHYSICALS**

### Regular Seagoing Positions

Employees in regular seagoing positions are required to pass a physical exam once per year, or more often if medical conditions warrant. Regular seagoing positions are those which require working at sea on a rotating basis of two months at sea and two to four months on shore (approximately 4 to 6 months at sea each year, depending on the position.) If a regular seagoing employee's physical exam expires while the employee is on official travel days to port call or at sea, he or she will be required to successfully complete the IODP exam prior to participation in a subsequent expedition. Failure to pass the IODP physical exam will result in the employee's restriction from participation in the scheduled expedition and may result in evaluation of continued employment.

### Positions Requiring Occasional Sea Duty

Employees in positions which may require occasional sea duty must pass the IODP physical exam prior to sailing but not more than once every twelve months, unless medical conditions warrant additional testing. Failure to pass the IODP physical exam will result in the employee's restriction from participation in the scheduled expedition.

The entire completed package is to be submitted to IODP Human Resources which will review the documents for completeness and for the physician's recommendation. The final decision to allow an employee to sail rests with officials of the International Ocean Discovery Program.

## **RESPONSIBILITY FOR EXAM EXPENSE**

The cost of this examination, up to \$400, the maximum amount established for IODP Annual Physical Exams, shall be for IODP's account.

The cost of required immunizations shall be for IODP's account. If required immunizations result in the total exam cost to exceed \$400, the cost of required immunizations will be for IODP's account. Required immunizations are defined as those which are as listed on the medical history questionnaire or those required to enter the country of operation. If the employee has not received a required immunization, or has an expired immunization, then the injections will be given as part of the annual exam.

If additional testing is required by the examining physician in order to make a determination of the employees' health status after any of the initial test listed are inconclusive, those additional tests shall be for the employees' account. This also includes any psychological testing or evaluations the examining physician might require in order to make a determination of being fit to sail.

In the event IODP requests any additional tests after the examining physician has determined the employee is fit to sail, these costs will be for IODP's account. The cost of any treatment, which may be required due to a medical or psychological condition, is for the employees' account.

# **NEW EMPLOYEE PHYSICAL**

## **GENERAL**

All job offers for seagoing positions will be contingent upon the new employee passing the IODP New Employee physical exam. The exam must be given by a licensed physician; the International Ocean Discovery Program (IODP) reserves the right to request a second opinion from another physician. New employees are encouraged to first consult with IODP Human Resources regarding the various tests so as to avoid unnecessary out-of-pocket expenses which might result from the physical exam.

The exam should be scheduled, completed, and returned to the IODP Human Resources prior to the new employee's first day of work. IODP has the option to request additional medical information or tests which may be taken into consideration if appropriate.

The IODP Human Resources will inform the hiring supervisor and the prospective employee whether the individual has passed the physical exam and is eligible for sea duty participation.

## **RESPONSIBILITY FOR EXAM EXPENSE**

The International Ocean Discovery Program will reimburse the new employee up to the maximum amount established for the cost of the physical exam providing:

- (1) the examination is performed according to IODP requirements; and
- (2) the new employee passes the exam.

Any cost above \$400 will be for the new employee's account. However, if required immunizations result in the total exam cost to exceed \$400, the cost of required immunizations will be for IODP's account. In addition, charges for procedures not required by IODP will be for the new employee's account. If an employee does not pass the physical exam and pursues further testing/treatment in order to pass, he/she will be responsible for the expense of these tests or treatment. If the employee fails the physical exam, the total cost of the exam will be for his/her account. The hiring supervisor will inform the new employee of this expense responsibility. The employment offer may be withdrawn from a new employee who fails the physical exam.

## **MEDICAL HISTORY RECORDS**

New employees are required to provide copies of medical history records for immunizations and blood type. If no records are provided or records are incomplete, immunizations and blood typing will be done as part of the new employee exam. IODP will cover the costs of these procedures.

**Please read and sign the below statement.**

I certify that the answers given by me on this questionnaire are true, complete, and correct to the best of my knowledge and are made in good faith. I understand that false statements or omissions may void this physical exam and may result in the withdrawal of an offer of employment or denial of sea duty participation. I agree that prior to participating on an IODP expedition I will undergo a complete, comprehensive examination by a duly licensed physician and that all of the required medical examination forms and test results will be submitted to the assigned IODP official who will in turn forward these documents to the shipboard doctor. I agree that if the physician performing said evaluation has reservations, in any way whatsoever, the assigned IODP official shall make the final determination as to my eligibility for shipboard service. I further agree that the assigned IODP official's decision shall be final. Successful completion (passing) of this exam does not in anyway obligate the International Ocean Discovery Program. I agree that I am responsible for providing all medication including psychotropic medication and medical supplies which I may need for the treatment of existing conditions for the duration of the expedition. I understand that my medical information will be kept confidential; however, if an injury, abnormality, or illness is discovered such that my fitness for sea duty is in question, I understand that it may be necessary to inform my manager and/or supervisor so that staffing decisions can be made. I further agree that if I am subjected to injury or illness after the date of my physical examination and prior to the beginning of the expedition I will notify the assigned IODP official so that eligibility for shipboard service may be determined.

# TYPICAL PHYSICAL REQUIREMENTS OF IODP EMPLOYEES

To be reviewed by examining physician

Attachment 2

I. On the job, the employee must perform the following:

<u>Activity</u>	<u>Per Work Day</u>
Bend, Climb; Push/Pull; Sit; Stand; Walk	Frequently
Reach above shoulder level	Frequently
Handle objects; Fine finger movement	Frequently
Squat, Kneel	Occasionally
Crawl	Rarely

II. On the job, this employee must be able to lift:

Up to 10 pounds	Frequently
11-50 pounds	Frequently
51-74 pounds	Occasionally
75-100 pounds; over 100 pounds	Only with assistance

III. On the job, the employee:

Operates foot controls	Occasionally
Is around moving machinery	Frequently
Is exposed to marked changes in temperature and/or humidity	Frequently
Drives automotive equipment in port	Occasionally
Is exposed to dust, fumes and gases	Frequently
Works in confined quarters	Frequently

## Seagoing Physical Requirements Statement

To be reviewed by examining physician

The duties of this position involve fine motor skills for delicate tasks as well as frequent strenuous physical activity including, but not limited to, moving, lifting, and carrying objects weighing as much as 50 pounds and occasionally more. This work is performed in port and at sea on a research vessel, working 12 hours per day, 7 days per week for up to two months without a break. The ship does not return to port during a two-month expedition. The work also requires reaching, standing long hours, walking, bending, and maintaining balance on a moving ship while carrying a load. Walking up and down several flights of stairs many times during day is required. The work is performed under confined conditions, with frequent exposure to noise, vibration, and potential allergens; also with occasional exposure to outdoor, extreme environments. Rarely, exposure to toxic gases requires donning full body protective gear and breathing apparatus while performing other duties as listed above. Medical evacuation (medivac) by helicopter or alternate vessel is only available within a certain distance from a port and the research vessel most commonly operates outside of this distance. In the event of an emergency, 5 or more days travel by sea are commonly required to reach port. Escape during an emergency may require navigating several flights of stairs and water tight doors.

## MEDICAL EXAM REQUIREMENTS

To Be Reviewed by Examining Physician

Attachment 3

The following indicated tests should be completed for the annual exam.

<b>TESTS:</b>	<b>REQUIRED:</b>
<b>Complete Blood Count</b>	Yes (Fasting)
<b>Blood Chemistry Profile</b>	Yes (Fasting)
<b>Audiogram</b>	Yes
<b>HgbA1C</b>	Yes, for individuals with diabetes
<b>Bruce Protocol Stress Test</b>	Males over the age of 40 <b>with one or more risk factors</b> should undergo treadmill stress testing according to the Bruce Protocol. Women over 50 should be likewise tested. The Bruce Protocol Stress Test should not be conducted more often than once every FOUR years, unless indicated by symptoms or changes in cardiac medical history.

Date of previous stress test:

\_\_\_\_\_

Risk factors for the purpose of the Bruce stress test are:

- 1) Cholesterol greater than 240 mg/dl;
- 2) Smoking;
- 3) Diabetes Mellitus;
- 4) Systolic blood pressure greater than 140 mm Hg or diastolic blood pressure greater than 90 mm Hg;
- 5) History of heart attack or sudden cardiac death in a first-degree relative less than 60 years of age.

<b>TB Skin Test</b>	Yes, unless received BCG inoculation* in the past. If individual is symptomatic or if TB skin test results are "positive," then perform <b>Chest X-rays</b> (PA and lateral). * If individual received BCG in past, physician statement indicating the individual has had a BCG inoculation and a <b>Chest X-ray</b> is required.
---------------------	--

## MEDICAL EXAM REQUIREMENTS CONTINUED

Attachment3a

The following inoculations should be completed for IODP Expedition 379 departing from and returning to Punta Arenas, Chile.

<b>IMMUNIZATIONS:</b>	<b>REQUIRED:</b>
Tetanus	Yes, if more than 10 years since last immunization
Cholera	No
Yellow Fever	No
Typhoid/Typhus	Recommended
Anti-Malaria Precaution	No
Polio	Recommended
Diphtheria	Recommended
Measles, Mumps, Rubella	Recommended
Hepatitis A, Hepatitis B	Recommended

**Any immunization indicated as not completed on Medical History Sheet** Yes

**TO BE COMPLETED BY EXAMINING PHYSICIAN**

Attachment3b

The information requested herein is required for participation on a research expedition aboard the research drillship JOIDES Resolution. Please note that although a licensed M.D. accompanies all expeditions, medical facilities on board are limited. In an emergency, it could require five days or more to reach a port. Although emergency transportation can be arranged, it may not be immediate. Please bear the aforementioned in mind in evaluating your patient's ability to withstand eight weeks at sea working 12 hours per day, 7 days per week. The purpose of this examination is to protect the health and safety of this employee, his/her fellow employees, and the scientific objectives of the expedition. To assist you in this evaluation and in determining what immunizations are required, please refer to the description of physical exam requirements for this participant (Attachment 3). Please refer to Attachment 2 for further information regarding typical physical requirements for expedition participants.

Physician, please indicate whether observations/results are within normal limits. If not within normal limits, please provide an explanation (attach additional page if needed).

## Consent for Treatment

I understand that I am seeking employee health services at/from a St. Joseph Health System Facility (the "Clinic") and give my voluntary consent to the attending practitioner or his/her designee(s), including other practitioners, facility personnel, and students, to perform and/or administer all screenings, examinations, diagnostic testing (laboratory, radiology, pulmonary function, FIT testing), immunizations, and treatment, which have been requested by \_\_\_\_\_, my prospective or current Employer.

I understand that Texas law provides that if any healthcare worker is exposed to my blood or other bodily fluid, my blood or other bodily fluid will be tested by this facility to determine the presence of any communicable disease, including but not limited to Hepatitis, Human Immunodeficiency Virus(which is the causative agent of AIDS), and Syphilis. I understand such testing is necessary to protect those who will be caring from me while I am receiving medical services at this facility. I understand that the results of the tests taken under these circumstances do not become part of my medical record.

\_\_\_\_\_ PATIENT'S RIGHTS AND RESPONSIBILITIES: I acknowledge receipt of the statement "Patients' Rights."

\_\_\_\_\_ NOTICE OF PRIVACY PRACTICES: I acknowledge receipt of the St. Joseph *Notice of Privacy Practices*.

This form has been fully explained to me and I certify that I understand its contents.

**Additional Physical Exam Requirements for Participants with Depression, Mental Illness, and/or Emotional Problems**

Attachment 4

It is IODP's policy to request additional information if a participant indicates he/she has been treated for or under the care of a physician/psychologist for depression, mental illness, and/or emotional problems in the last 12 months. Two additional items are required. A statement from the physician who performs the physical indicating that he/she is aware that you are/were being treated for mental illness, depression, and/or emotional problems and in his/her professional opinion that you can sail for two months. Second, IODP also requires a statement from the physician that was/is treating you for depression, mental illness, and/or emotional problems. Please provide the letter in Attachment 4a to your physician or please contact IODP's Human Resources and we can fax the letter to your physician. This letter explains the working conditions and environment on the ship. In addition, the letter requests the physician's professional opinion on how sailing for two months may affect your recent depression, mental illness, and/or emotional problems and his/her opinion on your fitness for sea duty in regards to your depression, mental illness, and/or emotional problems.

**Until this information is received and is reviewed, a decision can not be made regarding your fitness for sea duty.**

Please feel free to call me at 979/845-2583 if you have any questions regarding this matter.

May 15, 2018

To Whom It May Concern:

\_\_\_\_\_ is scheduled to sail aboard the *JOIDES* Resolution for two months  
(Name)  
starting in January 2019. \_\_\_\_\_ indicated on the medical history of his/her  
(Name)  
seagoing physical examination that he/she is being/was treated for depression, mental illness, and/or  
emotional problems.

The location of the ship will be several days from the nearest port. The ship is a closed environment with close quarters and shared accommodations and in an industrial environment. His/Her work will involve 12 hour shifts, seven days a week for the entire deployment (~60) days. IODP is concerned about this participant sailing due to his/her treatment for depression, mental illness, and/or emotional problems in relation to shipboard conditions.

Please provide a statement indicating your professional opinion regarding the impact shipboard conditions may have on this participant in relation to their condition and your opinion on his/her fitness to participate in a two-month expedition. You can fax this statement to me at 979-845-1026.

IODP is requesting this statement to ensure that this participant or others are not going to be put at risk if he/she is allowed to sail.

Sincerely,

Human Resources Representative
