INSTALLING THE POSTCRUISE PRINTER ON A MAC LAPTOP

1. Logon to the BlueSocket wireless network:
   a. Click on the “Airport” icon in the status bar at the top right corner of the screen and select “IODP”.
   b. Open a Safari Browser window. You should see the following screen (Click on "Continue"):

   ![Safari warning screen](image)

   *Safari can't verify the identity of the website "165.91.52.250".
   The certificate for this website was signed by an unknown certifying authority. You might be connecting to a website that is pretending to be "165.91.52.250" which could put your confidential information at risk. Would you like to connect to the website anyway?*

   ![Show Certificate, Cancel, Continue buttons](image)

   c. Enter the credentials supplied by IODP staff in the Username and Password blanks on this page and click on “Log in”:

   ![IODP login page](image)

   *You are accessing the Integrated Ocean Drilling Program guest wireless network.
   If you are an employee of IODP, please close this browser window and return to your Wireless Network Connections page to choose the "IODP" wireless network.
   If you are a guest at IODP, please follow these instructions:
   - Allow popups from this address (165.91.52.250)
   - If you have been given login information, enter the username and password provided. If you have not been provided login information, please see the Front Desk.*
2. Add the printer:

   a. Open System Preferences and click on “Print & Fax”:
b. Click on the “+” to add a new printer. Make sure the “IP Printer” tab is highlighted and the use the dropdown menu to select “HP Jet Direct – Socket” for the “Protocol”:

![Add printer dialog](image2)

c. Next, enter the IP address as shown in the Address field, below (165.91.52.93) and change the name to “LaserJet 4300 – C126”. Click on the drop-down menu for “Print Using” and select “HP”, then select “HP Laserjet 4300 Series” for the model. If that model is not listed on your computer, please let IODP IT support staff know and we will provide the drivers for you. Alternatively, the drivers may be obtained by going to [http://iodp.tamu.edu/travel/meetings.html](http://iodp.tamu.edu/travel/meetings.html) and clicking on “Mac Laserjet 4300 driver.” Please save them to your desktop. Once the window appears as below, click on “Add” to add the printer:
3. Click “Continue” on this page:

![Printer Browser interface]

4. You will now see the printer listed in your available printers.
