The page contains a diagram with a graph on the left and a written description on the right. The graph includes columns labeled 'Piece #', 'Graphic Representation', 'Drilling Disturb.', 'Samples', and 'Color'. The description includes the following points:

- **5-7 cm cemented sandstone**
- **7-15 cm diatom-rich layers**
- **Dolomite**
- **40-42 cm sandstone cemented by dolomite**
- **Diatom ooze**
- **86-87 cm dolomite**
- **Yellow thin layers 1-2 cm thick**
- **5Y 4/2 olive gray diatom**
- **5Y 4/4 olive diatom ooze, sharp boundary**

The text is a visual core description related to sediments and sedimentary rocks, indicating layers and their characteristics.
