5Y 4/11 (dark gray)

5G 5/11 (greenish gray)

Within the greenish gray biscuit are what appear to be "root" structures with additional colors of 10YR 6/18, brownish gray, 10YR 2/11, black, and brownish black. Biscuit material is fairly homogeneous, dark gray (5Y 4/11).

Course sand along rim of core.

Highly biscuited.
